

Using the ENABLE 10 Peer Supporter Sessions

Trainer's Resources

- The 10 ENABLE Peer Supporter sessions have been designed to build on the students' ENABLE 1 day Peer Supporter training course. The sessions intend to provide a progressive structure of simple and fun activities for the Peer Supporters to do each week which will help them make their school a safe and happy environment and give them the skills and knowledge they need in their role.
- If a Peer Support scheme is being set up for the first time, it is advisable to follow the proposed sequence of sessions. However, if something similar is already in place, only some of the sessions may be relevant. One session per week is recommended, either at lunchtime or after school. The sessions are designed to be facilitated by the Staff Peer Support Lead however some of the activities could be led by the Chair or Vice-Chair of the Peer Support group.
- At the bottom of each session sheet there is a 'Bright Idea' section for staff, students and parents/carers which provide examples of activities and campaigns the Peer Supporters and Staff Peer Support Lead can run outside the sessions to tackle bullying. We have provided links to any other resources that support the lesson, including how technology could be incorporated into the session.

A set of 10, 1 hour sessions to build on the Peer Supporters' initial 1 day's training and continue to develop the skills and knowledge students need in their role. Sessions should be facilitated by the Staff Peer Support Lead.
